365 Days Business | **365 Days** Networking | **365 Days** Lead Generation

www.globalfanconnect.com

The Digital Marketplace for the Global Fan, Cooler & Air Movement Industry

365 Days Business | 365 Days Networking | 365 Days Lead Generation

The global Fan and Cooler Industry is growing rapidly, but business development remains fragmented. Manufacturers, suppliers, distributors, OEMs, architects, consultants, and buyers continue to rely on exhibitions, referrals, online searches, and scattered directories to find the right business partners.

GLOBAL FANCONNECT

Global Fan Connect (GFC) is designed to solve this challenge.

Launching in September 2026, GFC is a dedicated digital business ecosystem created exclusively for the Fan, Cooler, Air Movement and Ventilation Industry.

More than a directory, GFC is a year-round marketplace where businesses can showcase products, generate leads, find suppliers, identify distributors, receive RFQs, and connect with buyers across domestic and international markets.

Whether you manufacture complete products or supply components, Global Fan Connect helps you grow beyond exhibitions and generate opportunities throughout the year.

Who Can Join?

Fan Manufacturers

Air Cooler Manufacturers

Fan Component Manufacturers

Cooler Component Manufacturers

BLDC Motor Manufacturers

Capacitor Manufacturers

OEM & Private Label Manufacturers

Machinery & Equipment Suppliers

Dealers & Distributors

Architects & Interior Designers

Consultants & Project Buyers
